

Sound Termination Clip

Installation Guidelines

STEP 1

Layout two 1-5/8" studs and position ST Clip 2' from bottom of first stud

STEP 2

Twist ST Clip into stud with the point toward the open face of stud and snap on

STEP 3

Place 2nd stud opposite side and parallel to the first stud, repeat ST Clip snap on to stud

STEP 4

Stud is ready for installation into 3-5/8" track

STEP 5

Turn double stud held with ST Clip into base track

STEP 6

Secure new ST Clip sound wall stud into track with screw
